## ◙ ABOUT

I'm a software engineer graduate from International Islamic University in Islamabad with expertise in front-end web development and UI/UX design. I have experience with technologies including React, Flutter and I'm also well familiar with design principles for mobile and web. I have worked individually and as part of a team working in various freelance and university projects. I also have 2 years of experience as a freelance designer & developer.

## ◙ EDUCATION

BS-Software Engineering from International Islamic University, Islamabad — 2018 - 2022

FSC Pre-Engineering from Punjab College of Information Technology, Rawalpindi — 2016 - 2018

Matriculation from PAEC model college, Chashma — 2014 – 2016

## ◙ PROJECTS

- **Personal Portfolio Website:** Built with **React** and **Tailwind CSS**, the website is built as a single page application (SPA) for display skills, information, and projects (with navigation using react-scroll).

- **Watchlist**: A Web Application for tracking which movies and TV shows you want to watch or have already watched. Built with **React**, **TMDB API** for movies & tv data, **Context API** for state management and local storage for persistent data on client side.

- **CodePen Clone:** A clone of the popular browser tool CodePen that allows users to write html, css and javascript code in the browser and view the outcome as well. Built with **React**, **codemirror** text editor library and browser local storage.

## ◙ SKILLS

**Technical Skills:** Front-end web development, Cross platform application development, UI/UX design.
**Languages:** HTML, CSS, JavaScript, Dart, Java, SQL.
**Frameworks & Tools**: React, Flutter, Tailwind CSS, Bootstrap
**Tools:** Firebase, Adobe XD, Figma, Git, GitHub, Redux.
